

E-PULSE PULSATION CONTROL

Part Numbers:

08-1020: E-Pulse
Pulsation Control

MIS345: LE20 12vDC
Pulsator - 2 Exits + Filter

E-PULSE Pulsation Control

**Compact and tough, the E-Pulse from ATL offers complete pulsation control at a really affordable price
Here's how the E-Pulse shapes up:**

Precise Pulsation Frequencies

Sixteen selectable frequencies in the range 50 to 65 pulses-per-minute (ppm).

Wide, Usable Ratio Range

Ratios from 50% to 75% switch selectable in sixteen steps.

4 Output Channels for N/O and N/C Valves

Each channel can supply 2Amps into 12volt DC normally open or normally closed solenoid valves. Equivalent to a maximum of 8 Interpuls LE20 pulsators.

Channel On Indicators

4 front panel LEDs light when channel is on.

230vAC 50Hz Input

100VA linear-type transformer included
