

## Mk1 LIQUID LEVEL

Part Numbers:

Relay: 14-0400

Single Phase: 14-0405

3 Phase: Contact ATL

# Liquid Level

## Cool Running...

Behind the elegant casing of ATL's Liquid Level, lies a digital control system that uses the latest solid-state technology to control your milk pump safely and reliably- milking after milking after milking.

### Milk Pump Control

Milk Level Detection Works Equally Well with 2 or 3-Probe Sensors or Float Switches\*<sup>1</sup> without Risk of 'Plating'

Thermal Overload Trip to Protect the Entire Unit

AC Contactor Fitted as Standard: Wired for Single Phase but may be Easily Adapted to Three Phase\*<sup>2</sup>

Relay Version also Available

\*<sup>1</sup> Probes or float switches are not included.

\*<sup>2</sup> Current rating of motor required.
